

# ~ MY WAVE

The design of the washbasins meets the needs of today's teenagers, with charging points, dryers and places for mobile phones. Everything is touch-free and the entirety of this design is suited for times of a global pandemic.

# ~ MY WAVE

The washbasin is in line with ergonomic guidelines. The exact part with the dryer allows you to put the phone in a safe place and carry out the entire process of washing hands without the risk of getting it wet, while facilitating the possible use of the phone, such as a conversation or watching a video.
